Escape to warm tropical sunsets, shimmering beaches and sultry hot weather...

On the magnificent coast of Mozambique, about 180km north of Maputo, you will find Bilene, home of Nghunghwa Lodge, a hidden piece of paradise. The name "Nghunghwa" is the Shangaan name for "Fish Eagle", the large species of eagle that is found throughout sub-Saharan Africa wherever large bodies of open water occur. Enjoy magnificent views of the Ujembe Lagoon from one of twelve luxury houses scattered between trees and dune brush.

If you are looking for a relaxed beach holiday, Bilene is the place to be. The seawater in the lagoon offers calm and often shallow spaces where holidaymakers can relax and soak up the sun. Unspoilt beaches, 15km of lagoon, forests and bush trails awaiting to be explored... nature is on your doorstep, easy to reach by boat, on foot or 4x4. This is paradise for bird lovers and nature lovers.

There are seven two-bedroom houses, four three-bedroom houses and a Presidential / Honeymoon Suite, each with balcony, set up on the lush green hill that overlooks the lagoon.

Whether water or land activities attract your attention, your days will be filled with excitement. 4x4 and quad trails criss-cross the area and the lagoon and sea offer great fishing and water sport activities.

On the southern side of the lagoon mouth lies Turtle Bay, where the leather back turtles breed (the largest turtle species of all). Tropical fish can be seen at the reefs when diving or snorkelling. The area is well known for good game fishing, including sail fish.

We offer skiing, water tube rides and wave boarding, or board a boat to head into town, the lagoon mouth or enjoy a stunning booze cruise. For the kids, we have a small artificial lagoon where they can kayak in safety. There is a fresh water swimming pool and a 700 kilolitre salt water pool.

We also offer Wedding and Honeymoon packages - come celebrate your special day with us under the African sun!
